

Durable shipping reels, take-apart, built from toroidal flange design – Type RFV/RFW

- Additional with rim profile for nailless lagging (Type RFW)
- Delivered in packs – saving freight costs
- Easy and quick assembly by one worker only
- Barrel and flanges can be replaced
- Flange diameter from 1600 to 2240 mm, certain deviation possible in case of customer's request

Available on request:

- Nameplates made of steel, e.g. with company logo
- Cable entry bow of steel or wood
- Tying bow

Our recommendation for using outside:

- Hot dip galvanizing for protection against corrosion
